

INITIO CORPORATION

INI-9090U

Card Type	Hard drive controller
Data Bus	32-bit PCI
Card Size	Half-length, full-height card
Hard Drives supported	Up to 7 Ultra SCSI devices
Floppy drives supported	None

CONNECTIONS			
Function	Location	Function	Location
50-pin SCSI connector - internal	J1	4-pin connector - drive active LED	J3
50-pin SCSI connector - external	J2		

USER CONFIGURABLE SETTINGS		
Function	Label	Position
iHost adapter is only one in system (see note below)	JP1	Open
Host adapter shares SCSI bus with adapter in another computer	JP1	Closed
iPC BIOS select	JP2	Pins 1 & 2 closed
MAC BIOS select	JP2	Pins 2 & 3 closed

Note: Closing jumper JP1 sets active termination so it is always on. The setting is used when the adapter shares the SCSI bus with an adapter in another computer. If that computer can be turned off, closing the jumper will insure that active on-board termination is on all the time, regardless of whether power is applied or not.
