

AN19E STEALTH²

AN19E Stealth² offers the best performance and functionality mainboard from FIC. Implemented the latest mainboard technology, the AN19E does it all.

Based on the high performance VIA KT400 chipset, the AN19E supports the very latest AMD Athlon XP processors at clock speeds of 2200+ and up. 3 GB of super fast DDR 400 memory can be installed, and it features state of the art architecture with 333 MHz Front Side Bus (FSB)

Other key features of the AN19E includes support for AGP 8X, on-board 10/100 Ethernet LAN, 5.1 channel sound, 6 USB 2.0 ports, and 6 PCI slots. An FIC exclusive 1stMainboard NOVUS BIOS utilities and generous bundle of free software which include Norton Anti Virus, Norton Ghost, Norton Personal Firewall and Adobe Acrobat Reader.

Hardware Specifications:

Processor

AMD® Athlon XP® (Socket 462) Processors 1500+ - 2200+ and up*

Chipset

North Bridge: VIA KT400

South Bridge: VIA8235

Memory

3 DDR DIMM; Up to 3GB

DDR 200/266/333/400 memory support

(Only limited support for DDR400 memory modules is provided by AN19C/E. Check next compatibility report, due for release shortly, for full details.)

Onboard Audio

Realtek ALC650 5.1 Channel Codec

Serial ATA

Silicon Image Sil3112a

Onboard I/O Connectors

1 Parallel port

2 Serial ports

1 front audio pin header

1 IrDA pin header

1 RJ-45 connector

1 PS/2 mouse and 1 keyboard connector

1 media connector (Line-in, Line-out, Mic-in)

2 IDE RAID connectors support ATA100/133

2 Serial ATA connectors

4 rear USB connectors and 1 front pin-header supports 6 devices (USB 2.0 support)

LAN

VIA VT6103

RAID

HighPoint 372 IDE RAID onboard (0,1, 0+1)

Onboard PCI IDE

2 dual-channeled enhanced PCI bus master IDE connectors; ATA 100/133

Expansion Slots

1 AGP (8X), 6 PCI

BIOS

ACPI, APM, PnP, SMBIOS, DMI, USB, PC99, PC2001, Y2K compliant

Form Factor

ATX 12' x 9.6'
