

Release information:

[ENGLISH]

1. Enhance CPU compatibility.
2. BIOS compiled date: 05/19/2005

[中文]

1. 增加 CPU 相容性.
2. BIOS compiled date: 05/19/2005

***** NOTE *****

1. How to upgrade BIOS:

- a. Boot into MS-DOS or "Safe mode and command prompt" if you are using Windows95/98
- b. Run "kv7v15.exe" to extract all files.
- c. Run "runme.bat"

*** Please notice that we suggest you flashing the bios with switches
"/py /sn /cd /cp /cc /cks /R" or by "runme.bat".

d. For more detail, please visit:
