

## Smart693A

## Detailed description

processor	Support Intel Celeron/Coppermine/Cyrix III
System Bus/FSB	66/75/83.3/100/103/112/124/133MHZ
structure	Standard ATX structure; (305mm * 190mm)
L1/L2 Cache	Built in CPU
chipset	VIA Apollo Pro 133
CPU clock/type setting	jumper free
AGP OverSpeed mode	66/75/83/100MHZ
Intelligent power interface	Support smart power card; support SUPS Function
Memory expansion slot	Three groups of 168 Pin DIMM slots
IDE interface	1*ISA/1*AGP/5*PCI/1*Smart Power
wake up function	PCI IDE*2; Support Ultra DMA66
hardware monitoring	Modem ring/network/RTC Alarm wake up; support keyboard, mouse power on
Power supply interface	CPU fan speed/5V, 12V, 3.3V, Vcore voltage on the motherboard/CPU temperature
Keyboard/mouse power on	ATX support
BIOS	Adopt AWARD BIOS PCI2.1/PnP BIOS V1.0a/APM V1.2/DMI V2.0 Support BIOS refresh/upgrade protection Support ACPI COMS software clear system bus BIOS optional
Bundle software	Directx V6.X/hardware monitoring software/virus protection (Super VB)
Win98 multimedia educational software	bound in CD
